

Week #4 Missed Class Summary Al Mufarji

Turn off your phone, shut your door and put a “Do not disturb” sign on your door to remove any distractions. This was followed by a Quality Check.

Announcements

Quality Matters “Beta” Test Student Workshop

Dr. Stover apologized for changing the class schedule. Week #6 and 7 LMS & QM Final Evaluation will be replaced by week #5 which will be doing the LMS tools and Executive Summary. We have to write 1-2 paragraphs.

Week #6 and 7 Quality Matters Workshop

Please register for QM Student Workshop as soon as possible. You will need the QM Rubric Workbook to complete the student workshop. By week #6, we will be done by other assignments and we will have time to complete the QM Student Workshop. In week #7, we have to give a robust feedback to Quality Matters about the QM student workshop from start to finish.

Quality Matters Standard #2

Dr. Stover explained in details about this Quality Matter Standard by giving examples. She continued by explained about the sub standards with examples. After this was done, Quality Matter Standard #8 was explained in brief.

Quiz Randomization:

We do the randomization so that students do not cheat in the quiz. Each student will have different questions.

Turnitin:

Set properties so that you can see “originality” reports and then drop off a word document in the drop box and view the report.

Week #4 assignment:

We have to complete 2 LMS tools: 1.Drop box w/differentiated. 2. Quiz w/differentiated. 3. You Tube w/cc. 4. Accessible HTML template which is not an easy process and 5 is Edit Accessible HTML. The following week which is week #5 will be the final week for the tools.

This was then followed by questions. Dr. Stover cleared all the questions and doubts. Everyone was sent to their respective groups.
