

Welcome

Thank you all for taking the time to review this report. You will have a robust feedback on the research I have completed on Quality Matters rubric. The aim of this research is to ensure the best way of delivering our online classes by providing the highest quality.

To be able to accomplish my mission, is to select a new management system for our University. Since I have used Desire2Learn in my previous organization, I will be evaluating D2L as one of the Learning Management System. This will help our organization to tackle the complaints about our current distance education classes. It is my goal to provide the best information for the organization and I hope that you will find the information very useful.

Goals and Objectives.

- Ways of adopting quality matters rubric as a guideline to help instructors to have a quality online and blended classes.
- Selecting the best Learning Management System that have the tools for developing effective online and blended classes that meet the Quality Matters guidelines.
